Diagram: one square = hull length; show positions of boats, wind and current directions, marks.

I am challenging whether Rattle N Rum raced to their nominated PHRF declaration?

Additionally I am challenging the measurements of the Code 0 used during the race and whether it's a code zero/ Genoa or an Extra.

Whether any one measurement, exceeds the largest declared measurement on the PHRF

Whether regardless of its status of this sail, should it have been listed as a modification and thus could/should have effected their handicap.
